

**ECONEETS@WORK**

Co-funded by  
the European Union

## **PRESS RELEASE**

2022-1-CY02-KA210-YOU-000083292

**Eco-NEETs@Work, a project funded by Erasmus+,** addresses the pressing issue of unemployment among young NEETs (Not in Employment, Education, or Training), particularly those from rural and digitally excluded areas. The project aims to provide an inclusive, innovative, and sustainable solution based on experiential learning and the participants' rural backgrounds to enhance their entrepreneurial skills and digital competencies through hands-on environmental-oriented activities. By doing so, Eco-NEETs@Work strives to motivate and introduce these individuals to the labor market, even in the challenging post-pandemic era.

**Eco-NEETs@Work** brings together three partners, each contributing their expertise to achieve the project's objectives. The partners are **Key Innovations, Learning Seed, and DigiCULT**

Some of our **activities** are:

- *A comprehensive report on eco-practices, eco-preneurial learning methods, needs and level of competences of young individuals.*
- *Training methodology for an efficient training*
- *Training pack & e-tools bank.*
- *Framework to support future synergies*
