ECONEETS@WORK

Fostering the employability opportunities of young NEETs through eco-activities for digital and entrepreneurial competences

READ MORE →

The project...

Eco-NEETs@Work addresses youth unemployment, focusing on NEETs in rural and digitally excluded areas. It proposes an inclusive and sustainable solution using experiential learning and the NEETs' rural background to boost entrepreneurial skills and digital competencies through hands-on environmental activities. This initiative aims to motivate and integrate them into the labor market, particularly in the post-pandemic era.
